Benefits of GATEntry

100% Security

GATEntry allows organizations to maintain strict control over who enters their premises. This reduces the risk of unauthorized access, theft, or security breaches.

Improved Compliance

GATEntry can help maintain accurate records of visitors and employees, which may be necessary for audits and compliance reporting.

Data Analytics

Generate reports and analytics based on visitor and employee data, offering valuable insights for decision-making and resource planning.

Customizable and Scalable

GATEntry can be tailored to suit the specific needs of different organizations and can be scaled up or down as per requirements.

Attendance Management

Advance attendance management system for your employees & automate your employees payroll effortlessly using GATEntry.

Visitor Insights

Provide valuable insights into visitor traffic, helping organizations understand peak visit times, popular entry points, and other data that can inform resource allocation and operational decisions.

Easy Integration

GATEntry can be integrated with access control systems, such as biometric scanners, ensuring that only authorized employees and visitors can access specific areas within the premises.

Paperless and Eco-Friendly

By digitizing the visitor and employee registration process, GATEntry reduces the need for paper-based records, making it more environmentally friendly and efficient.

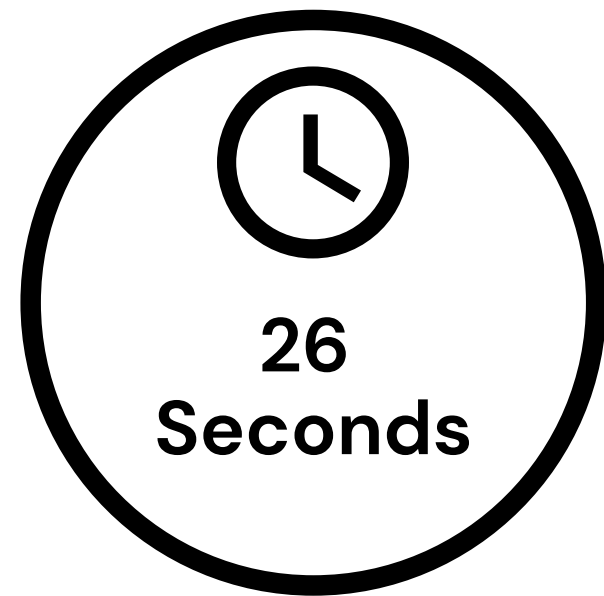

Real-time Monitoring

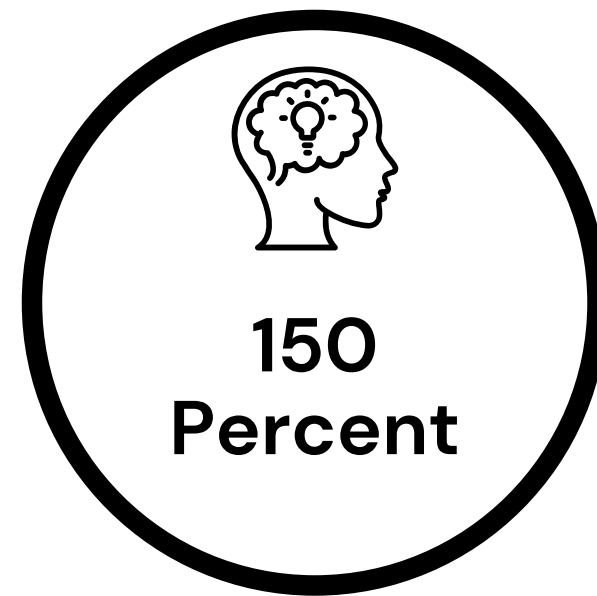

The system provides real-time monitoring of visitor movements within the premises. Security personnel can quickly identify any potential security threats and take appropriate actions.

Results

"Groundbreaking stats: Achieve impressive results by our solution!"

An average saving time of 26 seconds in visitor registration.

Up to 150% lift in brand recall intent versus industry benchmarks.

Up to 95% Visitor's are happy with digitalization.

ROI up to 2x higher with our data driven analytics.
